BS REPORTER  
Kolkata, 16 April

**E**astern Institute for Integrated Learning in Management (EIILM) has signed an agreement with ABUS Security Tech Germany, a security product manufacturing company based in Germany, for internship assignment for its engineering students.

R P Banerjee, director and dean, EIILM, said, "We have a total of 1900 students, across disciplines. Around 50 students now are engineers. We intend to send at least eight students per three months to ABUS in Germany for a two-month internship." The institute will send two students in May to ABUS and soon start sending eight students to ABUS every three months.

## Eastern Institute, ABUS Security in pact

*Kolkata, April 16*

**E**astern Institute for Integrated Learning in Management (EIILM) has entered into a memorandum of understanding with ABUS Security Tech Germany, a leading security product manufacturing company for establishing academia-industry relationship, according to Dr R.P. Banerjee, Director, EIILM. The tie-up with ABUS would enable the students of EIILM undergo training in the various security systems developed by the company, develop products and market knowledge for such technology in our country and be involved in marketing of the security systems. Some of the students from the institute would be sent for training to Germany and would be allowed to work with the research scholars of ABUS. — **Our Bureau**
